

Datasheet

BACnet OPC-Server

BACnet OPC Server allows the data transfer from connected BACnet devices to OPC based applications (e.g. GLT or Scada-systems). This product is a software solution compatible with Windows Operating System on a PC with network interface card.

Supported Operating Systems

- Windows 7 32 Bit / 64 Bit
- Windows Server 2008 R2 64 Bit
- Windows 2008 Server 32 Bit / 64 Bit
- Windows 2003 Server 32 Bit / 64 Bit
- Windows Vista 32 Bit / 64 Bit
- Windows XP Professional 32 Bit / 64 Bit

System requirements

- min. 15 MB free HD space
- min. 32 MB-RAM memory
- CD-ROM drive
- Ethernet-network card
- free USB-Port for Dongle

This easy-to-operate software for Microsoft Windows® offers an uncomplicated connection of BACnet tools/appliances to OPC based management stations. The integrated data monitor allows a quick overview on the state and the current values of connected BACnet appliances.

Supported BACnet DL-Layer:

- Ethernet ISO 8802-3
- BACnet/IP
- BACnet/PTP (Routing Edition)

Additional support of BBMD/FD

Inclusive Installation packet incl. print functions, EDE-File Import/Export, search functions

Scope of supply

- CDROM incl. up-to-date Software
- Dongle for serial for USB Ports
